

# Dress Code

The SAH dress code is Business Casual. All employees attending the meetings are required to follow the SAH dress code as they are, despite attending the meeting at a resort, representing the company at a public location.

It is always important that we ensure that company personnel present a positive and professional image while conducting company business. (See the SAH Dress and Grooming Policy for more information if necessary). Please be reminded that although the weather at the planned location may be hot, the meeting rooms may be cool or cold. It is suggested that employees bring layered clothing items to accommodate these temperature variations.
